City of Dunwoody Installs Speed Detectors on Womack Road

Dunwoody – October 12, 2009 – The City of Dunwoody Public Works Department has completed installation on the first two of ten permanent speed detection radar signs all to be located near Dunwoody area schools. The first pair of signs is located on Womack Road near Dunwoody Elementary School.

The signs will be in operation, with the displays off, for the first week in order to collect accurate traffic data for the designated area. During the week of October 19, the signs' digital numerical displays will be activated informing oncoming drivers of their speed. If the vehicle is exceeding the posted speed limit, the speed display will flash to remind the driver to slow down.

Over the next few weeks, the Dunwoody Public Works Department will continue the installation of the remaining eight signs near the following area schools: Austin Elementary, Peachtree Middle, Chestnut Elementary, Kingsley Elementary, and Vanderlyn Elementary. The data collected will be used to study speed patterns in the school zones as well as the effectiveness of the radar signs as speed deterrents.

For more information please contact the City of Dunwoody Public Works Department at 678-382-6700.
